Stip & Ord-Disc Re
Debtors_DO...

Tim, Chris and Silvia:

I have received the email below from Sidley and assume you have reached agreement with them on the terms of this stipulation a copy of which is attached.

The only comment I want to raise with you is one that I mentioned when we met on Monday which is whether you want to add at this time something on how the cross examination of any live witnesses at trial will occur. As you will recall, direct testimony of the witnesses will go in by affidavit, cross will occur live (on the 21st at the hearing). We currently only anticipate calling one of the pre-petition independent directors (Les Gelber) at the hearing. Obviously, his direct testimony will be limited to Schleyer and Cooper compensation issues, and thus any cross should naturally be so limited.

I am assuming based on my discussion with you on Monday that by not addressing the scope of cross in this stipulation that we will collectively make sure at the hearing that any issues relating to scope of cross or the questioning of Les (e.g., by the Rigases who are at least a party in interest in the bankruptcy) are limited to the direct testimony of the submitted affidavit. If you don't intend to do it this way, you may want to get the parties to stipulate, and the court to enter it as a protective order, that the scope of cross examination at the hearing will be so limited. I believe we can take care of this at the time of the hearing, but want to make sure you are comfortable with that.

Subject: Stip w/ government

Attached is a revised version of the Stip which the government has signed off on. Please provide any technical comments you may have (fill in the blanks). We will then finalize and circulate for signature.
